Health & digital
Healthtech marketplace, Postgraduate in Health Management, AWS migration, automation

PROFESSIONAL EXPERIENCE

Career break — M.Sc. thesis and relocation from Barcelona to Brazil — Apr 2026 – Aug 2026

Operations Project Lead · SNL Commercial Property Services

Jul 2024 – Apr 2026

Melbourne, Australia · Commercial services · 200+ employees · 16 sites · Team Lead (contract, part-time) Jul 2024 – Jul 2025, promoted to Operations Project Lead

- Achieved **100% SLA compliance across 16 commercial sites** within one quarter, by leading a 50-person cross-functional team with Agile cycles and OKR-aligned priorities.
- Cut **supplier costs by 35%** across 16 sites, by forecasting consumable demand and tying vendor contracts and cost reporting to SLA targets.
- Kept a 16-site program on schedule with weekly milestone reports to senior leadership, by running PRINCE2-aligned governance: scope, RAID log and change control.
- Earned promotion from Team Lead to Operations Project Lead within 12 months, by building trusted working relationships with the building managers of every site I covered.

Project & Operations Manager · Origani

Dec 2024 – Jun 2025

Melbourne, Australia · Luxury cosmetics · US$5M revenue · 50+ employees · Full-time

- Cut **supply-chain lead time by 20%**, by owning ingredient procurement end to end (sourcing, quotes, supplier selection and purchase decisions within budget) with partners in Australia, Asia and Europe.
- Delivered a **Microsoft Dynamics 365 ERP** rollout across production and supply chain in 7 international markets, by leading data migration, vendor coordination and user training.
- Gave leadership a live financial view of 3 departments and reduced executive escalations, by building Power BI dashboards combining operational and cost data.

Co-founder & CTO · Fusion Clinic (healthtech)

Mar 2023 – Dec 2024

Natal, Brazil · Marketplace connecting healthcare professionals to medical offices · Joined as Project Manager, became partner and technology lead

- Shipped features **35% faster** across a portfolio of **6 concurrent projects** (marketplace app, ERP integration, automation), by leading a 12-person squad with Scrum and OKR-based prioritization.
- Took a healthcare marketplace from first wireframe to the **Web Summit Lisbon 2023** stage, the first startup from Rio Grande do Norte there, by owning discovery, roadmap and the AI matching feature.
- Migrated the platform from legacy hosting to AWS with minimal downtime, by designing and running the cloud setup with an outsourced development team.
- Kept founders aligned on scope and spend by reporting roadmap and budget, and presented the program roadmap to international investors and partners.
- Ran marketplace payments at about **1,500 transactions a month**: integrated Pagar.me with the outsourced development team, then migrated to Asaas for lower fees, set up the 20/80 split between Fusion and clinics, and handled reconciliation and chargebacks with the finance manager.

Case study, prototype and heatmap: luiz-gomes-portfolio.vercel.app/#fusion

Senior Marketing Project Manager · CONTHABIL

Apr 2023 – Jun 2024

Natal, Brazil · AI-powered accounting B2B SaaS · 20+ employees · Remote, contract

- Cut **manual rework by 25%** across product, marketing and admin workflows, by leading a digital transformation program with process automation and change management.
- Generated qualified leads across several Brazilian states, by running paid-traffic campaigns and the social-media content calendar for an AI accounting SaaS.

Software Project Coordinator (B2B / public sector) · Life Sprint

Jan 2022 – Feb 2023

Natal, Brazil · Wellness and digital health

- Raised team efficiency by **30% in 6 months** across 8+ concurrent software projects, by redesigning delivery processes with Lean.
- Gave executives one view of performance with KPI dashboards **now replicated in 12+ Brazilian states**, by designing them in Power BI with the business teams.

Process Improvement Consultant · CDL Natal

Dec 2019 – Jan 2021

Natal, Brazil · Consulting for 25+ member organizations

- Removed 3 critical bottlenecks and 3 approval steps, by mapping processes with Lean Six Sigma and BPMN.

Earlier experience — PRO Soluções Consultoria Jr., Executive President (2018–2019): led a core project with 500%+ ROI.
