PROFESSIONAL SUMMARY

Implementation and project manager with 8+ years taking clients and teams from kickoff to go-live in Brazil and Australia. Rolled out Microsoft Dynamics 365 across 7 international markets (configuration, data migration, user training), ran 8+ concurrent software projects for B2B and public-sector clients, and built a healthtech marketplace as co-founder and CTO. Studied and worked inside Latin American universities (Universidade Potiguar, USP, Universidad Nacional de La Plata) and ran workshops and entrepreneurship programs for students. Runs client workshops and training in English, Spanish and Portuguese.

Tools & methods
Jira, Confluence, Power BI, SQL, PMBOK, PRINCE2, Agile

PROFESSIONAL EXPERIENCE

Career break — M.Sc. thesis and relocation from Barcelona to Brazil — Apr 2026 – Aug 2026

Operations Project Lead · SNL Commercial Property Services

Jul 2024 – Apr 2026

Melbourne, Australia · Commercial services · 200+ employees · 16 sites · Team Lead (contract, part-time) Jul 2024 – Jul 2025, promoted to Operations Project Lead

- Achieved **100% SLA compliance across 16 commercial sites** within one quarter, by leading a 50-person cross-functional team with Agile cycles and OKR-aligned priorities.
- Cut **supplier costs by 35%** across 16 sites, by forecasting consumable demand and tying vendor contracts and cost reporting to SLA targets.
- Kept a 16-site program on schedule with weekly milestone reports to senior leadership, by running PRINCE2-aligned governance: scope, RAID log and change control.
- Earned promotion from Team Lead to Operations Project Lead within 12 months, by building trusted working relationships with the building managers of every site I covered.

Project & Operations Manager · Origani

Dec 2024 – Jun 2025

Melbourne, Australia · Luxury cosmetics · US$5M revenue · 50+ employees · Full-time

- Cut **supply-chain lead time by 20%**, by owning ingredient procurement end to end (sourcing, quotes, supplier selection and purchase decisions within budget) with partners in Australia, Asia and Europe.
- Delivered a **Microsoft Dynamics 365 ERP** rollout across production and supply chain in 7 international markets, by leading data migration, vendor coordination and user training.
- Gave leadership a live financial view of 3 departments and reduced executive escalations, by building Power BI dashboards combining operational and cost data.

Co-founder & CTO · Fusion Clinic (healthtech)

Mar 2023 – Dec 2024

Natal, Brazil · Marketplace connecting healthcare professionals to medical offices · Joined as Project Manager, became partner and technology lead

- Shipped features **35% faster** across a portfolio of **6 concurrent projects** (marketplace app, ERP integration, automation), by leading a 12-person squad with Scrum and OKR-based prioritization.
- Took a healthcare marketplace from first wireframe to the **Web Summit Lisbon 2023** stage, the first startup from Rio Grande do Norte there, by owning discovery, roadmap and the AI matching feature.
- Migrated the platform from legacy hosting to AWS with minimal downtime, by designing and running the cloud setup with an outsourced development team.
- Kept founders aligned on scope and spend by reporting roadmap and budget, and presented the program roadmap to international investors and partners.
- Ran marketplace payments at about **1,500 transactions a month**: integrated Pagar.me with the outsourced development team, then migrated to Asaas for lower fees, set up the 20/80 split between Fusion and clinics, and handled reconciliation and chargebacks with the finance manager.

Case study, prototype and heatmap: luiz-gomes-portfolio.vercel.app/#fusion

Senior Marketing Project Manager · CONTHABIL

Apr 2023 – Jun 2024

Natal, Brazil · AI-powered accounting B2B SaaS · 20+ employees · Remote, contract

- Cut **manual rework by 25%** across product, marketing and admin workflows, by leading a digital transformation program with process automation and change management.
- Generated qualified leads across several Brazilian states, by running paid-traffic campaigns and the social-media content calendar for an AI accounting SaaS.

Software Project Coordinator (B2B / public sector) · Life Sprint

Jan 2022 – Feb 2023

Natal, Brazil · Wellness and digital health

- Raised team efficiency by **30% in 6 months** across 8+ concurrent software projects, by redesigning delivery processes with Lean.
- Gave executives one view of performance with KPI dashboards **now replicated in 12+ Brazilian states**, by designing them in Power BI with the business teams.

Process Improvement Consultant · CDL Natal

Dec 2019 – Jan 2021

Natal, Brazil · Consulting for 25+ member organizations

- Removed 3 critical bottlenecks and 3 approval steps, by mapping processes with Lean Six Sigma and BPMN.

Earlier experience — PRO Soluções Consultoria Jr., Executive President (2018–2019): led a core project with 500%+ ROI.
